DETAILED ACTION

1. Applicant's response and amendment filed 5-12-03 has been received.
2. Amendments to claims 1, 9 and 16 have been entered.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 1-23 remain rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a method of modulating inflammation, swelling associated with inflammation or infiltration of macrophages associated with inflammation at a cutaneous site, comprising the step: directly administering to the site an expression vector, wherein said expression vector comprises a nucleic acid encoding full length LIF and wherein said nucleic acid is operably linked to a promoter, wherein said promoter expresses the nucleic acid in the skin cells at the site and wherein the LIF is expressed in the skin cells at the site, does not reasonably provide enablement for any other embodiments of the claimed invention for reasons of record set forth in the previous office action of 11-6-02. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the claimed invention commensurate in scope with these claims.

While claims 1, 9 and 16 have been amended based on the previous office action, the claims do not recite "direct administration" to the cutaneous site". Therefore, the rejection is maintained for reasons of record. Reciting "administering directly to a cutaneous site" in place of "administering to a cutaneous site" will obviate the rejection.

5. The 112 second paragraph is withdrawn in view of applicants' amendments.

6. No claim is allowed.
7. The claimed invention is free of the art of record.
1. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
